Our primary source of contact with referees is via email. Without an email address we cannot contact referees.

Please ensure you insert only one email per referee, per line. Do NOT include multiple emails in one line, as this can result in referees not being contacted.

Please put the name of the law firm in question here.

We send two types of questionnaire, depending on whether the referee is an instructing solicitor or other. If we do not contact referees with the right questionnaire, this has a direct effect on the feedback your referee will provide.
