FOREWORD

James Wood, The Legal 500

The Legal 500 is delighted to welcome you to the GC Summit Indonesia 2019. With over 100 of the country's leading in-house lawyers joining us today, the event reflects the growing significance of the in-house legal function to businesses both in Indonesia and across the wider South East Asia region.

Reflecting this, today's conference draws heavily on the practical, hands-on experiences of GCs and private practice advisers. We have asked our speakers to think long and hard about how they, as advisers to business, actually approach a matter, whether that is overseeing a transformational deal, handling a bet-the-company dispute, navigating a regulatory and competition enquiry or ensuring data protection systems and policies are fit for purpose.

We were fortunate to have received the support and opinions

of our speakers in the run-up to this summit. Their views are reflected in the sessions we will enjoy throughout the day. We also benefited from the support and insight provided to us by some of the leading law firms active in the region. We would like to thank our sponsors K&K Advocates, Walalangi & Partners (W&P), Hogan Lovells DNFP and TNB & Partners in association with Norton Rose Fulbright.

The Legal 500 will continue to work on new and innovative ways of bringing GCs and their advisers together. If you have any suggestions for how we might make next year's summit even better then please do let us know.

We hope you enjoy the conference.
