THE FIRM

Hassans was founded in 1939 and is the largest firm in Gibraltar. It is one of the world's foremost offshore law firms which combines an old world approach to client service with a new world approach to business and technology. Hassans are trusted advisers to clients both locally and overseas who seek legal guidance in a fast-moving, multi-jurisdictional world. Though rooted in Gibraltar, the firm has an international clientele in key jurisdictions around the world, with many assignments involving cross-border advice. The extent of the firm's expertise, combined with its worldwide network including major London, continental and UK law firm links, gives Hassans the reach to satisfy all of its clients' needs.

AREAS OF PRACTICE:

Corporate & Commercial: The firm provides a full range of legal services for clients ranging from small businesses to major multinationals. It advises corporate clients working in or through Gibraltar on a wide variety of cross-border transactions and financing structures. Other matters handled include international corporate restructures, joint ventures, M&A and corporate franchising, tax and e-commerce.

Data Protection: The firm's data protection team has been specialising in Data Protection since the early 2000s. With the increased threat of penalties for non-compliance of the General Data Protection Regulation (GDPR) the team is able to work with clients on strategy, drafting policies and delivering in-house training to ensure full compliance and mitigate risk.

Environmental: The team has developed a range of experience in all aspects of environmental work, including assisting with the drafting of environment and climate change legislation, reviewing the environmental aspects of legal documents relating to planning and construction, and facilitating the trading of green assets internationally.

FinTech: Gibraltar has fast become a key crypto harbor which Hassans has contributed to on a wide scale; the firm has been deeply involved in assisting the Gibraltar Financial Services Commission with the drafting of the Guidance Notes to Gibraltar's DLT Providers Regulations and has attracted a significant number of initial coin offerings/token sales and other distributed ledger technology related matters, including licence applications under Gibraltar's DLT Providers Regulations.

Funds: The fund industry in Gibraltar has seen rapid and impressive growth, and it continues to expand at a phenomenal rate. As a result, Gibraltar has become a serious option for individuals and companies considering where to base investment funds. Hassans has been at the fore front of this development, advising both the Government of Gibraltar and most of the funds domiciled in Gibraltar.

Gaming: The firm has advised some of the major on-line betting operators on setting up their operations in Gibraltar and on their IPOs on the London Stock Exchange. The firm has also been heavily involved in assisting the Gibraltar government and industry in drafting the Gambling Act, which has modernised gaming legislation.

Insurance: Hassans is not only part of the Gibraltar insurance industry, the firm helped create it. The firm's innovative approach has delivered value to insurance clients over the last 20 years working with some of the biggest names in the industry.

International Finance & Banking: The firm has particular experience in banking and financial markets. It is the only firm in Gibraltar to combine specialist expertise in derivatives regulation with a substantial banking, tax and securitisation practice. The firm advises on banking regulation and licensing, including the establishment of offshore operations and regulatory advice, as well as the implementation of various legal and tax structures including repackaging and securitisation.

Litigation: The department handles most aspects of litigation, with a niche focus on international commercial and trust litigation. The firm's litigators practise as both barristers and solicitors, and provide a full range of litigation services.

Pensions: Hassans has a specialist pensions law advice function which boasts a team of lawyers with an unrivalled background in and knowledge of the UK and Gibraltar tax system. The team, together with Hassans' associated company management firm, Line Group Limited and its pension trusts arm, Quantum Trust Corporation Limited, is able to provide professional advice and regulatory guidance on the best possible options for clients, on a case by case basis.

Private Client: Many clients choose to obtain Gibraltar residence and thereby benefit from our very favourable tax system. The team can advise on everything our clients need including securing resident status, obtaining Cat 2 status, transferring assets, taxes, permits, property, re-domiciling corporate vehicles and setting up trusts. Whilst the firm naturally focus on Gibraltar's competitive legal and fiscal system, the firm's expertise covers a broad range of jurisdictions. The firm is therefore able to create bespoke structures for private clients establishing trusts and companies both inside and outside of Gibraltar, if required.

Property: The firm acts for most of the major local and international developers and builders. The firm advises on matters concerned with secured lending, mortgages and charges for most banks and building societies in Gibraltar. **Shipping:** The firm has strong links with major English shipping firms and has been involved in a number of significant international admiralty cases. The firm also handles ship registration and finance.

Spanish Law: The firm's English-speaking, Spanish qualified lawyers based in Sotogrande, Cadiz (www.hassans.es) help international corporate and private clients, as well as expatriates in Spain, navigate the Spanish system on all matters including banking and finance, corporate and commercial, real estate, residency matters and tax.

Sports Law: The firm's multi-disciplinary sports team comprises a dedicated team of contentious and non-contentious lawyers who are passionate about sport. The Team is supported by experts across the firm who have significant experience in areas such as immigration, employment, brand protection, real estate, financial services and tax. The team is international in outlook – it acts for clients from around the world and its members are fluent in a number of foreign languages.

Trust & Company Administration: Through an associated company (Line Group Ltd) the firm provides administration services for both companies and trusts. Among the users of these services are international clients who the firm advises on the use of Gibraltar trusts and offshore companies.

International Work: Three quarters of the firm's work is related to international clients. Many of them use Gibraltar companies and trusts to structure their fiscal, fiduciary or investment requirements, and over the years strong links have been forged with major multinationals, financial institutions, banks, law and accountancy firms throughout the world.

Clients: The firm's international clients predominantly come from the US, the UK, Israel and continental Europe (in particular Luxembourg, The Netherlands, Spain and Portugal). They include global corporations, private equity groups, international banks and insurance companies.

Mr Daniel Feetham

WORK DEPARTMENT

Financial Services.

POSITION

Partner.

CAREER

Daniel is a Partner at Hassans and a member of the firm's Litigation team.

He is an English trained barrister and practised at the Bar in England for a number of years before returning to Gibraltar. He is one of a few Gibraltar lawyers who holds a valid practice certificate to advise on English law and continues to appear as an advocate in the courts in England and Wales. He is a senior litigator whose main areas of practice include insolvency, trusts, insurance and financial services regulatory litigation. Many of his cases have been leading cases in their field.

Together with Nigel Feetham, widely recognized as the leading insurance lawyer in Gibraltar, they act and have acted in a number of very significant disputes involving decisions of the GFSC in insurance and other regulatory cases.

Many of these disputes involve complex and important points of laws concerning the powers of the GFSC when investigating licensed entities or in relation to the legislative framework in which those investigations are conducted (e.g. the Solvency II Directive, the Financial Services (Insurance Companies) Act 1987 and the Financial Services (Information Gathering and Co-operation) Act 2013).

Their combined knowledge and experience in this field is probably unrivalled in the jurisdiction.

LANGUAGES

English, Spanish.

MEMBERSHIPS

Daniel is also a Member of the Gibraltar Parliament and has made a significant contribution to public life in Gibraltar. He was a member of the Gibraltar delegation that successfully negotiated the new constitution with the United Kingdom from 2003-2006 and that addressed the UN on Gibraltar related issues from 2002-2005. In 2007 he became Gibraltar's first Minister for Justice steering some of the most fundamental legal reforms in living memory including the introduction of the Insolvency Act 2011.

From 2011 to 2012 he was Deputy Leader of the Opposition and then Leader of the Opposition until July 2017. He is currently the shadow Minister for Justice and financial services. His experience in public life provides him with a unique insight into the macro economic or political factors behind the decisions of public or regulatory authorities, as well as the way those decisions are taken.

He has, for example, acted for and against the Gibraltar Financial Services Commission ("the GFSC") on many occasions and in 2006 devised their protocols for cooperation with foreign regulators.

Mr Ian Felice

WORK DEPARTMENT

Corporate and Commercial.

POSITION

Ian joined the firm in 1999 and is a Partner of Hassans' Corporate and Commercial Team.

He is experienced in transactional work involving the use of Gibraltar-based structures, principally for commercial property investments, and also regularly advises on corporate restructuring, acquisition, sales, joint ventures and financing (institutional and private equity). Ian also has particular expertise in advising professional corporate service providers on directors' duties and responsibilities, including in the context of shareholders' disputes, and is regularly appointed to act as an expert in litigation matters involving Gibraltar company law.

CAREER

Ian led the Hassans team that advised the Government of Gibraltar on the drafting of the Companies Act 2014, set up Gibraltar's first Foundation under the Private Foundations Act 2017 and advised on the corporate and commercial matters involved in the first listing of a Gibraltar company in the top 100 of the London Stock Exchange. His diverse practice has also led him to act on the purchase of the business of a distressed crystal and porcelain manufacturer, the purchase of a children's TV channel for a major international news group, the purchase and refinancing of two Gibraltar shopping centres and a retirement homes complex, franchising work for major UK and US retail outlets (including for a major internet-based retailer) and corporate work for a listed Gibraltar port waste management operator.

Ian is Hassans' Lead Partner for the Gibraltar Football Association, and advises the GFA on a wide range of legal matters, including corporate governance, protection of intellectual property and its purchase of the Victoria Stadium.

Ian was the Chief Executive of Line Group, Hassans' affiliated trust and corporate services provider, from 2012 to 2016, and remains on its Board.

LANGUAGES

English, Spanish.

MEMBERSHIPS

Ian has chaired the GFA's Disciplinary Panel, a role he has also carried out for the Gibraltar Hockey Association. Ian is the Vice-President of the Gibraltar national basketball federation and has been a FIBA international basketball referee for 8 years, officiating in 5 European Nations finals.
