THE FIRM

BH2I is a corporate, real estate and hospitality legal and consultancy firm focusing on the Asia Pacific region consisting of top-tier attorneys with in-house experience and large law firm pedigrees. We provide practical and commercially sound legal and consultancy services to leading global, regional and national clients on international business transactions by advising on all aspects of the foreign direct investment, project and transaction lifecycles.

Performance managed solutions

BH2I uses a hybrid “bricks and mortar” / virtual law firm structure and market leading, secure, cloud-based practice management and AI legal software technology to provide comprehensive, efficient and scalable performance managed solutions for work requirements that are time-sensitive or carry significant risk if not executed correctly.

Each instruction is staffed by the appropriate number of fee-earners with the correct level of experience for the matter at hand regardless of size or complexity; this client-centric and results-focused approach ensures senior level availability and input when required, and results in on-time and on-budget delivery of services to our clients.

Team of dealmakers

We are deal-makers, not deal-breakers. BH2I’s cohesive core team has decades of experience working together and a proven track record of delivering successful and efficient results for clients in the Asia Pacific region and beyond. We use this experience and approach to find new and better ways of solving challenges and moving past transaction impasses. Anyone can assess risk or state a position; we find solutions for our clients and get deals done.

Regional expertise and network

BH2I’s core team has partnered with regional and global affiliates under strategic agreements to additionally provide bench strength and on-call responsive niche expertise for exceptional circumstances.

Our attentive promptness ensures your transaction moves forward and gets done; our industry knowledge of deal structures and region-wide market expertise keeps you from leaving money on the table or exposing you to unnecessary risk.
